Meeting 2: Daniel Campanella, Danny Diaz Aguirre, Landen Webb

<https://asu.zoom.us/rec/share/yN2vilbOVWbYWwaCzYZ9mLTsRvt4pUVLNWK-PpW6rJCxyloYzQdbWsuNdT-PQJbk.n113kZeMuKGSQs50>

Passcode: zZ@6@Y7w

Meeting 2:

1. Progress Updates

- Daniel: Fixed logout issue, ensured session persistence, started password reset feature.
- Anshika: Implemented password hashing, finalized database setup, and tested authentication.
- Sam: Improved mobile responsiveness, enhanced error messages, found unclickable buttons on small screens.
- Danny: Completed validation fixes, improved real-time error messages, noticed browser inconsistencies.
- Landen: Fixed test failures, verified incorrect passwords are rejected, needs more tests for session expiration.

2. Next Steps

- Daniel: Complete and test password reset functionality.
- Anshika: Perform security testing and implement salting.
- Sam: Fix unresponsive buttons on mobile screens.
- Danny: Ensure validation consistency across browsers.
- Landen: Add tests for session expiration.

3. Blockers

- Daniel: Need to handle session timeouts correctly without affecting active users.
- Anshika: Some database queries are slow—needs optimization.
- Sam: UI changes not saving properly after edits.
- Danny: Error messages sometimes don't display correctly after multiple failed inputs.
- Landen: Some session expiration tests need debugging.
