Standup Meeting Notes

Meeting 1:

1. Progress Updates

- Daniel Campanella – Set up team norms, Trello board, project structure, login authentication, and README.
- Anshika Rai – Helped with GitHub repo, researched password security, and worked on database schema.
- Sam Oroud – Designed UI, aligned UI with best practices, and structured the project timeline.
- Danny Diaz Aguirre – Organized Trello tasks, worked on input validation, and researched security best practices.
- Landen Webb – Created test cases, worked on automated tests, and planned screencast recordings.

2. Next Steps

- Daniel: Fix logout issues and session clearing.
- Anshika: Implement secure password hashing and finalize database schema.
- Sam: Finalize UI wireframes and improve mobile responsiveness.
- Danny: Complete input validation and fix special character issues.
- Landen: Debug test failures and ensure tests pass.

3. Blockers

- Daniel: Getting the team organized and together for the first project was a hassle. Anshika: Need the best approach for password hashing.
- Sam: UI shifts on smaller screens.
- Danny: Users don't log out properly.
- Landen: Tests failing despite valid input.
